# Introduction

## **Your Birthday, Your Year**

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## **A Special Event**

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Family First

*Ascendant in Cancer*

Your approach this year is cautious, because you care and you want to show that you care. The challenge is not in the intent but in the delivery, as you need to take control where it is important but can't afford to waste your inner resources where they are needed or don't deliver mutual return. When your heart is on your sleeve, there are too many wanting to relieve you of it, but when you play your cards close to your chest, sometimes it can be a lonely game. This year you'll want a creative balance between the two, because you need to move forward with what moves you inside.

### Actions Arise

*Mars Conjunct Ascendant*

Strength is yours this year, and leading with action will be your inclination and the source of your success. That will put you into leadership positions, but it can also bring you head-to-head with others with a similar inclination, so watch out for collisions. Look before you leap, but go ahead and do it just the same.

### Spiritual Conservation Arises

*Neptune Trine Ascendant*

Creative interpretation of your personal presentation, the way you look to others, allows you a lot of freedom to play the part they want to see while still being yourself. It's not about the details, it's the general idea and façade that carries off the production, and you're the director.

# The Foundation for Your Year (continuation)

## Power Experience Arises

*Pluto Opposite Ascendant*

Partners may put up opposition this year, blocking your way, locking you out, trying to take control of your actions. That can be the stuff of strife or the opportunity to change horses in midstream. Or, you can simply surrender if it's not worth fighting over. Confrontations have to be mutual to lead to trouble.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Action

*Midheaven in Aries*

The word is out about you this year a lot more quickly than you might think, but it may not be very accurate when hot off the press. Be prepared to deflect premature rumors while accepting unexpected praise only halfway through the game. In the end, it's the end that counts, however, so don't forget it.

## Manage Progress in Values

*Venus Square Midheaven*

You may have to strike a balance between getting everything you want out of the year and seeing your reputation suffer for it. Above all, be discreet, as tales told out of school about you will not likely be true, so there's no point in providing a factual base for others to fantasize upon.

## Manage Physical Examination

*Saturn Sextile Midheaven*

Checks and balances may seem to hold you back this year when in fact they're holding you up. Hidden supports that have been around and taken for granted can become your mainstays, although you may not recognize it at the time. A lot is about good habits keeping you out of troubles that you don't notice you've missed.

## The Sun

## Your Inner Personality and Style

## Planner

*Sun in 11th House*

This is a year to hang out with the best – those who have and will serve you well. Although that could be anyone from old school friends to the hottest new clique, you'll know them when you see them, because there's an inner magnetism pulling you there. Your recognition of value is in part what gives the greatest value to your circle of trust, because those there are somehow extensions of your own personality. A winner knows a winner, so they say, and that pretty much describes it for you this year. Seek them out, they await you.

## Teaching Ideas

*Sun Conjunct Mercury*

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

# The Foundation for Your Year (continuation)

## Building Discipline

*Sun Trine Saturn*

Support comes from traditional quarters this year, so feel free to lean on previous experience and contacts to shore you up and sustain you when the new stuff fails to produce to expectation. No point in reinventing the wheel when you've got a reliable set ready to roll, proven, tried and true.

## Progress in Peace

*Sun Square Neptune*

Inner confusion is a stumbling block this year, as when you're not sure about your own inner truths it's hard to determine what outside reality is. It's easy to get lured off the path and into the bushes by beckoning promises that seem to offer a better way, but you may be best putting on blinders

## The Moon

## Your Feelings, Reactions, Emotions

## Fertility

*Moon in Taurus*

Your emotional pace this year is likely to be more deliberate, gradual on the uptake as you take extra time to make sure your reactions are correct and your feelings are both sincere and enduring. You'll find yourself more patient and willing to absorb and tolerate rough or uneven patches that might normally get you riled up or annoyed. There's a feeling that it's worth the added effort to decorate your inner life with depth and content that may require added expense or effort because the end result is so much more satisfying. For the moment, you can skip instant gratification, go for the 24-karat life...

## Community Support

*Moon in 11th House*

Whether you're pushing on the way up or relaxing at the height of your career, your closest company is what defines the way your world develops. This year you are particularly sensitive to those near and dear, your elected personal elite, and who you'd like either to become or remain among them. Dreams don't come true until they're imagined, and the road to their fulfillment is almost always determined by the people you choose and who choose you. Your ability to create and sell yourself here, as well as protect what you are already working on, is particularly highlighted this year.

## Feeling Critical

*Moon Sextile Mars*

You don't take the time to internally judge your actions this year, so there is a rhythm that's kind of taken for granted. Your eye is on what you do, not how you feel about it, and that allows you greater freedom of movement, without self-censorship. What never occurs to you can't possibly get in your way.

## Sign of Success

*Moon Square Jupiter*

Overstating or understating your feelings this year leads to continual readjustment of them, which can be seen as irregularity or inconsistency. The first arrow overshoots the mark, followed by a wild shot, eventually honing in on the bull's-eye, but you'll need to give yourself space to work it out.

## Long Suffering

*Moon Sextile Neptune*

Your intuition is sufficiently fine-tuned this year that you don't particularly think about it but just play the hunch automatically, as if it weren't one. There's no way you're going to be able to justify that, but you probably won't be asked to, as no one, including yourself, will question the process.

## Embody Control

*Moon Trine Pluto*

You've got a lot of faith that things will turn out right this year, and you're likely to act with a lot more confidence because of it. Your initial reaction is that the situation will come out OK no matter how dire, so you're fearless when others might hesitate, which makes the difference between success and failure.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Communications

*Mercury in Gemini*

Your head can cover all the bases this year, as long as you can put your plans into words and down on paper. Discuss it, network, get everybody's opinion and then put your own on top of the mix to cap the lot. As long as there's a plan you can stand back and look at, analyze, you'll be on top of the issues.

### Psychological Ideas

*Mercury in 12th House*

Shooting your mouth off can get you in trouble this year, primarily because you may give away your plan without knowing it. Better to keep a lid on what you're onto and organize behind the scenes without too much fanfare. Back-door arrangements beat up-front slip-ups across the board.

### Successful Words

*Mercury Square Neptune*

Mental confusion and spiraling uncertainty are challenges to meet and overcome this year, as your thinking process is subject to blurring by influences that might not ordinarily derail you. Part of that may lie in your demanding more clarity than is available and refusing to continue without it. Instead, press on, regardless.

## Venus

## Your Needs, Wants, Desires

### Love of Home & Family

*Venus in Cancer*

Desire is sweetened when the prize is yours and yours alone, and you'll be most satisfied when you can nourish your small pleasures into big ones without too much sharing going on. That doesn't mean you're not in the mood to give - quite the opposite - but it's important to be in control so it properly comes to flower.

## Selfless Love

*Venus in 12th House*

Sometimes what you most want can get you into trouble, so look twice this year before biting into that magic mushroom – you don't know where it's been. Nevertheless, secret goings-on have especial allure and won't be hard to come by – just be careful someone's not watching behind your back.

## Building Blocks

*Venus Trine Jupiter*

What you want is what you get this year, and you'll find yourself happy with new choices and the increased appetite for life they bring, one after the other. Expanded horizons mean expanded capacity, but watch your waistline doesn't follow suit. Satisfaction, this time, means having happily had just enough, not gulping down more.

## Mars

## Your Energy, Life Force, Excitement

## Drive for Home

*Mars in Cancer*

Keeping your efforts contained and under control allows you to nurture and bring them to fruition. Giving within the confines of the task is everything, but giving away any of it to outside competitors is a no-no. It's your baby, the arrow from your own bow, so take charge of what you do, it's proprietary.

## Direct Action

*Mars in 1st House*

Throwing yourself into things is a major concept this year, and you're likely to lead with action where you might have thought twice about it before. That lets you bound from strength to strength as long as you stay sure-footed. Just keep your head up to make sure you know what's directly ahead of you.

## Embody Unity

*Mars Trine Neptune*

If you can imagine it, you can do it this year, as the ability to put speculation immediately and smoothly into action is at the tip of your fingers. Basically, the usual minor readjustments of how you make things stay on course seem to blend into a single movement, as if the future were drawing you to it, instead of your pushing toward it.

## In Control

*Mars Opposite Pluto*

Your efforts periodically come up against a brick wall this year, and roadblocks can tire you out by forcing you to redirect your energies to get around them. Resist the tendency to rev your engine and smash through, as your insurance may not cover the consequences. Wait for the path to clear or try a clever detour instead.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

**Jupiter** **Ambitions, Goals, Possibilities**

**Career Helping** *Jupiter in Pisces*  
 You are likely to see people going out on a hunch and staking their gains on intuitive calls that may easily founder or, if on the mark, race to a new level. It's all about listening to that still, small voice - and about quieting the noise enough to hear it. If you're a hard-nosed realist, this could drive you crazy - but it's in the air, so why not share?

**Business Career** *Jupiter in 8th House*  
 If you find everyone is knocking on your door to offer you credit, enjoy the opportunity but with care. Remember, a loan is just a product that someone else makes money on. Still, resources from other places are useful to tap when you're tapped yourself, or when you've got new fish biting this year and want to save your bait.

**Saturn** **Caution, Wariness, Wisdom, Boundaries**

**Obstacle: Community** *Saturn in Aquarius*  
 This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

**Obstacle: Society** *Saturn in 7th House*  
 Who's your partner? If it took more than a second to answer that, you may have too many, and this year is the time to decide on who's who. When intimacy is the question, less is definitely more, and sometimes it's even necessary to set limits with those closest to you in order to achieve it.

## Objective Research

*Saturn Square Uranus*

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Productivity**

*Uranus in Taurus*

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

**Freedom: Practicality**

*Uranus in 10th House*

Stabilizing your career position may be a challenge this year as unexpected news requires you become part of the story and adjust accordingly. Inventiveness and originality is the key to your actions here, and the corner office is reserved for those clever enough to move with the gusty winds to achieve it.

**Neptune** **Dreams, Hopes, and Fantasies**

**Embrace: Life**

*Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Spiritual

*Neptune in 9th House*

The bigger the idol, the more plentiful the worshippers, the more likely it's feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

## Change Blocked

*Neptune Sextile Pluto*

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

*Pluto in Capricorn*

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Public

*Pluto in 7th House*

Domination in the personal sphere may be a real issue when you find yourself in yes-or-no positions with a partner and it's my way or the highway. There are other roads to follow, in fact, if you both agree to eschew the one you're fight over. So often, if it's worth fighting about, it's worth your walking away from.

# Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

## Mercury

### Your Mind and Intellect, Thoughts and Plans, Communication

#### Fresh Ideas

*Moon Conjunct Mercury*

Really feeling what you say is a theme for the year, as your new emotional take is tied to your talent for figuring things out. So articulating your reactions come easy, and while others are still stammering to say what they mean, you've already hit the nail on the head with the first words out of your mouth.

## Venus

### Your Needs, Wants, Desires

#### Insight Into Feelings

*Moon Conjunct Venus*

You're extremely attuned to what you want, and sometimes desire is so strong you can taste it this year. You don't have to fumble around for an excuse or a way of phrasing it, you just know it the moment you see it and reach out to grab it. The question will be, how available is it and does someone else want it, too.

## Sun

### Your Inner Personality and Style

#### Teaching Ideas

*Mercury Conjunct Sun*

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

## Jupiter

### Ambitions, Goals, Possibilities

#### Manage Career Overview

*Midheaven Conjunct Jupiter*

Whatever your secret plans were for expanding your borders and taking over the world, they're on public display this year so you had better have them in order and ready to implement, since you're going to have buyers. You'll also likely have those who look to buy but come to steal, so protect your exhibits.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Jun 08, 2021 to Jun 8, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

**Values Are Apparent**

*Ascendant on Venus (PSR-SR)*

You look so good today you could kiss your mirror, but let someone else do that for you instead. When you feel especially charming and desirable, that's what you project, so this is the perfect day or so to get out there and woo who and what you want, because they're going to want a piece of you, too.

*Midheaven on Neptune (PSR-SR)*

There are illusions in the air about what you do and what you think can happen for you, some of which may actually be true. Don't take what's said about you to be gospel, as it may just be fantasy - someone else's or even your own. Hope is in the air, but you still need to put breakfast on the table unless you can wait for lunch.

They're talking about you like you're the latest thing, and there's no point in denying it, at least for the time being. New ventures suddenly get noticed by a wider audience, time to move your ambitions to a wider world, up a notch, as new frontiers become real possibilities. Pick one, not all, and hang on to it.

# Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
