#### Mercury Stationary Retrograde in 07th House

Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.

#### Mercury Conjunct Saturn (Retrograde)

Mercury doing a swivel on your Saturn may give you some pause for thought about how you are handling your limitations and if there may not be some better ways to get more mileage out of what you've got. There is more than one way to skin a cat, and if you think you've hit a wall, try looking for a previously unnoticed doorway into the potentials beyond. Old formulas may be tried but not true, and now may be the time to figure out how to streamline or dump them. The only thing that's holding you back may be you, and you just didn't know it, so take another look. There is a fine line between security and a prison, so put the key in your pocket before you lock (or unlock) any doors.

Mercury Stationary Direct in 06th House

Hectic reduplication, delays, and scheduling confusions will be straightening themselves out after a few weeks of necessary resorting. All that remains is to put the finishing touches on new approaches and link them all up with others who may be involved. Missed or mixed up messages are resented or clarified so everybody is back on the same page and agrees upon what the next step is going to be. A general sense of well-being supplants a certain unease born of uncertainty and you get back to your healthy glow born of knowing where you've been and focus on where you're going.

Mercury Conjunct Saturn

As Mercury comes back to life over your Saturn, your ability to get down to brass tacks returns as well. It's time to clear out the detritus that has littered your life of late and lean on the more important stuff. That means be specific but don't waste time elaborating. Say it and do it right the first time and you won't have to repeat yourself -- and you'll earn the respect of others blessed with less decisiveness. Don't be afraid to put your foot down and ask what part of "no" they don't understand, but be judicious about where and when you do it so you don't dilute your authority.

#### Mercury Stationary Retrograde in 11th House

Sometimes when you choose to lean on friends, you find they're leaning on you already, and then everybody gets confused. The next three weeks give you the chance to discover and address this kind of situation so that good feelings remain all around and everyone is back on a mutual course. One reason this can happen to begin with is that you may have been paying too much attention to your own goals and aspirations and lost track of your personal support grouping. A little healthy self-introspection may help your own ambitions find better focus and general support where you can most rely on it.

#### Mercury Conjunct Sun (Retrograde)

Mercury's reversal directly on your Sun is a road sign for coming reevaluation of your fundamental energies, the way you project yourself from the inside out. Perhaps it is time to again put to words and rephrase just what it is that you're all about, and fine-tune your inner beacon's lens so that your light shines more clearly on the world. The message is: Don't take yourself for granted and don't let precious resources sit idly by when you can put all your balls in play. Don't just deal from a full deck, but from a full and knowing heart, without reservation.

#### Mercury Stationary Direct in 11th House

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.

#### Mercury Conjunct Sun

Mercury turning back to action on your Sun means this three-week period of reshifting is best rid of through the sheer force of your personality. Where things had gotten tangled, a willing

smile and a positive attitude will cut through the confusion and clear up misunderstandings. Where you might have done well before to delay and see which way the wind blows, now you can be the wind itself and blow away the mists that may have limited visibility for all concerned. Don't expect instant sunshine, but you can count on clearing skies and relieving rays to decorate the coming days.

The next three weeks may well mark a lot of ebbs and swirls in the social fabric you move in, with associates backing and filling and sometimes seeming less than reliable. No blame here, just a general reshuffling until everyone feels comfortable with their positions, including yourself. Try to work on removing obstacles to the flow and diplomatically shift your schedule according to who better fits your evolving agenda. Toward the end, you may have to call into question some aspects of your financial underpinnings in order to effectively make contact and cause others' goals to come into step with your own.

**Mercury Stationary Direct in 03rd House**

Several weeks of greater confusion than you'd have liked are on their way out and you can get back to what you were doing with a bit more confidence and sense of purpose. Getting roadblocks out of the way allows you to chart a surer course and feel better about what you are doing and what kind of commitments you can make and live up to. Red herrings and detours can be put behind you as you get back onto a map everybody can buy into. The cost of delays and uncertainties is made up for by knowing that they no longer impede and that you can now throttle up and get on some real speed.

The everyday care of the smaller necessities in life are highlighted during this period. First, you may feel you are not getting your daily due and proper attention -- but then you may discover it is because you haven't really asked for what you truly want. Learning new and more satisfying ways to address your personal habits and those of others will refresh once you take a closer look. This can mean taking better care of yourself, eating what truly satisfies, and turning the necessities of the daily grind into the opportunities of ever-evolving accomplishment. Life is one thing at a time, each well done.

#### Venus Conjunct Moon (Retrograde)

Venus on pause as it touches your Moon may give you pause to reconsider how much your desires draw you into relationships, and how you can get more out of it. An open hand means an open heart, but glad handers can put a crimp in the joy of giving and being close. Take a look at who has the privilege of enjoying your company and make sure it's a two-way stretch. It's a period for emotional insight and selection, to separate true joy from simple fun, a time to learn to treasure what you really want and dispense with what gets in the way. Turn to the true, savor the sweet, know how to truly identify both.

#### Venus Stationary Direct in 05th House

Stirred and circling creative urges start to take more concrete shape now, and it's time to select those projects that have real sex appeal and drop the humdrum. Conflicting desires begin to show signs of harmony, and spontaneity becomes its own reward. The essence of choosing is the sureness of your choice, and confidence in your decisions will now begin to pick up the pace. This actually impacts on your wellness, and the better you feel, the better you are -- and the more you will accomplish as a result. Take a deep breath of desire, and you'll find it satisfies.

#### Venus Conjunct Moon

Venus making its turn on your Moon adds breadth to the palette of your emotions and you can open up a range of subtle pleasures that might have been eluding you before. Feel free to respond just as you feel and don't hold back waiting for something better to come along. Loosen ties of inhibition and release inner tensions that might have held you back from admitting what it is you really want. You can't get what you don't admit to, so honesty is the

best policy and will also have the effect of getting you out of situations you'd just as soon avoid.
