Your Composite Chart

A composite chart is simply a horoscope made up of the midpoints between the natal charts of two different persons. What results is a new horoscope that describes the interface between the two personalities: the shoreline where one leaves off and the other begins. Like any coastline, it may be even and easygoing at one point and convoluted and forbidding at another. And, like any shore, it is subject to fair and stormy weather. This astrological "weather" is the repeating transits of the planets.

Watching these transits, you can spot a host of intricacies in your relationship that you likely did not know were there. Once spotted, you have the opportunity to take better advantage of what is already going for you and more effectively grapple with problems that were hidden or only partially-revealed before.

Critique

It's really time to smell the roses when you stop even noticing them. Taking a good situation for granted is actually a real pleasure, especially when you appreciate the ease and gratification in being peacefully in orbit together. It doesn't require an orgy of self-satisfaction, just quiet thanks for the moment.

The Public

Mixed feelings and confused messages get lost because you're at loose ends about just how to apply your separate imaginations to become joint reality. Let the mists pass and brush away each other's cobwebs without tarnishing any fondly-held fantasies and you'll find better focus down the road in a day or so.

Sometimes the best way to break out of the box is to simply slip out of the wrapping without tearing the packaging. Feelings of Acceptance Arise

It's easy to be personable right now, as quiet support says yes to your rhythms in subtle ways you may not even pick up on except to notice that you're a little more comfortable in your shoes. Communication runs easy and commentary pleases whether it's just everyday chatter or something much more intimate and meaningful.

Feeling Innovative

How far out can you go, what is the limit of tolerance for untrained or untamed experience for both of you? That's a question to explore for a moment, as it will tell you just how far to push each other for fun before it becomes scary, and what one of you may feel thrilled by that may in fact offend the other. These boundaries keep changing, so you need to keep probing them for mutual enlightenment (good) and emotional safety (essential).

Keep Control

There are moments when a relationship is more than an active dynamic, it's also something you can lean on. That's in part reinforced by outside events that make you glad you have the mutual protection with someone comfortably but actively watching your back. When you know what to expect, you can take the time to savor it.
