When two planets are separated by a particular angle, astrologers believe that the influences of the two planets combine to create a strong effect on a person. In ancient astrology and much modern astrology five angles are considered very important: 0, 60, 90, 120, and 180 degrees. These important angles are known as "aspects". In modern times, many astrologers also interpret aspects of 30, 45, 135, and 150 degrees. Some astrologers also use a variety of other angles, such as 72, 144, 40, 80, and many other angles. In the late 20th century a branch of astrology known as "harmonic astrology" developed and practitioners of harmonic astrology believe that there are many hundreds of different aspects, so harmonic astrology has greatly increased the complexity of astrological interpretation. Not all astrologers are convinced that these additional aspects are important. Harmonic astrologers also group together various aspects which they believe to have a similar influence. For example, the fractions of 1/9 (40 degrees), 2/9 (80 degrees), and 4/9 (160 degrees) of a circle are known as "9th harmonic aspects". Given below are interpretations of the following 6 aspects: (1) the semisextile aspect, which is 30 degrees, (2) 24th harmonic aspects, (3) 16th and 32nd harmonic aspects, (4) quintiles and biquintiles, also known as 5th harmonic aspects, (5) the septile, biseptile, and triseptile aspects, also known as 7th harmonic aspects, and (6) the novile, binovile, and quadnovile aspects, also known as 9th harmonic aspects. These additional aspects are known as minor aspects or harmonic aspects. There are many other aspects used in harmonic astrology, but these aspects are among the most important and powerful, and hence this report describes some of the most important Harmonic Highlights in your astrology chart.

I recommend that you read this report after reading an interpretation based primarily on the most commonly used aspects. I think you will be impressed by the ways in which the aspects interpreted in this report describe major issues in your life and in your personality that are not described as clearly by the more commonly used aspects. Hopefully this analysis of harmonic aspects will be useful and helpful to you. If you are an astrologer and you currently do not use harmonic aspects, reading several Harmonic Highlights Reports of friends and family may make you a believer in harmonic aspects. Adding these additional aspects to your interpretation does add greater complexity and detail to your analysis, and keeping a clear, integrated view of the astrology chart becomes more difficult, but astrology is likely to grow in sophistication as it evolves and develops in the 21st century.

Aspects noted as "very strong" in the report have an orb of less than 1/3 the allowable orb and appear at the beginning of the report. "Strong" aspects have an orb of less than 2/3 the allowable orb, and aspects that have an orb that is 2/3 or greater of the allowable orb are printed at the end of the report.

If there are any midpoints conjunct or opposition midpoints within a 15 minute orb, these are also interpreted. These four-planet patterns are also known as isotraps or planetary pictures.

Finally, planets conjunct or opposition the midpoint of two other planets are interpreted. These midpoint structures are also known as direct midpoint structures because the angular distance from the planet at the midpoint to each of the other two planets is the same. Direct midpoint structures with an orb of less than 15 minutes are analyzed first followed by those with a 30 minute orb, then a 1 degree orb, and finally up to a 1 1/2 degree orb. Therefore the midpoint structures with smaller orbs are interpreted first followed by midpoint structures with larger orbs.

For the benefit of astrologers, given below are the orbs used for each aspect. Note that according to harmonic theory, orbs are defined so that all harmonics occur equally often by chance, and hence the orbs are not rounded to the nearest degree.

*Sun/Pluto opposition Jupiter/Neptune: (Orb: 0 Deg 09 Min):*

### **DIRECT MIDPOINT STRUCTURES (allowable orb = 1 1/2 degrees)**

*Moon Opposition Venus/Uranus 0 deg 01 min*

You enjoy lively music and dance. You have a good sense of rhythm and probably you have an infectious laugh. You enjoy jokes and tricks. You have an aptitude for psychology and history, and with training you can become very good at understanding the historical and psychological roots of current trends and the behavior of people. Also, you are sometimes very impatient with people who do not express themselves clearly, and you appreciate people who can

communicate clearly and directly.

*Moon Opposition Mercury/Uranus 0 deg 23 min*

You have quick reflexes, which gives you talent in some sports, playing a musical instrument, or any other activity that requires quickness and agility. You are very clever and have a good sense of humor. You pick up on things that other people miss. You function well in a fast-paced environment but can become nervous and high-strung from too much stress.

*Uranus Conjunct Sun/Neptune 0 deg 51 min*

Your imagination and idealism are unusually strong. It is likely that you believe in various paranormal phenomena that most people are skeptical of. In order for your dreams, visions, and fantasies to develop to their greatest potential, it is best if you avoid drugs, alcohol, and stimulants.

*Moon Opposition Venus/Mars 0 deg 51 min*

You are a very deeply loving, emotional person and you bond very closely to loved ones. Because your feelings run very deep, be very careful in selecting a marriage partner as it can be extraordinarily difficult for you to part ways once you have given your heart to someone. The extent to which you are happy in your romantic relationships and family relationships probably is the main determinant of your overall happiness.

*Venus Opposition Saturn/Uranus 1 deg 14 min*

You have some conflicting feelings when it comes to your love relationships. You want to be devoted and responsible to the people you love, but you also want to feel uninhibited, unrestrained, and free. Without realizing it, you may make loved ones feel that they are annoying you or bothering you. Try to be patient and calm while trying to resolve any relationship problems that you encounter.
