SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most Planets Rising

You have the majority of your planets on the eastern half (or left-hand side) of your chart showing that you take great pains to be sure that you are free to act as you wish in life. Freedom of movement and expression are important to you. You have a strong feeling that you make your own destiny.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

No Quadrant Emphasis

You tend to diversify your energy and attention to several different areas of life. You may have difficulties in achieving your goals in life until you order your priorities. You can be a master at balancing many different aspects of life when you learn to use your time wisely. Avoid letting your mind dwell on projects you are not immediately engaged in. Keep your attention in the here and now and your life becomes much simpler.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

Jupiter is your only fire planet. You have 10% of your chart in fire. You struggle to sustain your energy and enthusiasm for projects that you become involved in. Over-enthusiasm or over-projection may get you into trouble; your optimism turning to pride, you are not able to progress. For this reason, make sure that your life path sustains the values you hold. Be very selective as to what projects you put forward. There is always a danger that if your vision is far out in front of your energy so that your energy is spread over too many projects. Success is aided through honest self-appraisal.

Earth

You have an abundance of earth in your chart showing that you are a cautious and thorough person. You build material security in life. If, for any reason, this isn't happening you feel miserable. This can point to a problem of valuing the wrong things in life and chasing empty dreams. Ask yourself how much you really need and let it go at that. You can be an earnest and hard working person if over-acquisitiveness doesn't blind you.

Air

You have just 20% of your chart in the air element. You have a magic blend in the air element. You have an ever-active intellect. Your eye is always looking, your mind is always attempting to grasp more and more information. You don't feel confident in what you know. This lack of confidence prompts you to keep on task with the learning process. You never relax on the subject of gathering new information. In the long run, you become quite scholarly in life, out-performing most others in the mental realm.

Water

Neptune is your only water planet. You have 10% of your chart in water. Getting in touch with your feelings often requires you to latch on to a larger social expectation of you. This can mean that you don't have honest, direct appraisal of your feelings but live out others' expectations. Hence, developing a meaningful personal life can require some effort on your part. You see this as an area to be improved on and work hard to get in touch with your feelings.

2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have 20% of your chart in the cardinal mode showing that you are capable of both leading and following. You know how to assert your point of view or execute someone else's. Your preference is to follow someone else's lead and embark on your own path only when you feel it is necessary.

Fixed

A tremendous amount of your chart is in the fixed mode. You have endurance. Whether a course of action is good or bad you are more likely to stay with it than change. The principle of inertia is with you. When you rest, you have real difficulty getting going. When you are in motion, you have real difficulty stopping or even changing directions (even slightly). People find you a loyal friend and a tenacious enemy.

Mutable

You have an abundance of mutability in your chart. You are a thinker and attempt to accommodate a number of circumstances and people in your environment. You may have difficulty choosing a direction and staying with it. Truth has a way of becoming a highly personal subjective factor; consequently, others think of you as not being able to communicate simple truths in a factual way. You are nervous and may need more B-Vitamins in your diet, rest, and meditation in order to be balanced.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

LEO RISING

You have a strong, fixed, and sunny projection of yourself into your environment. You can be very openhearted and very kind to others but for all your optimism and openness you can suffer from narrow self-interest and have difficulty seeing larger issues than circumstances in your own life. Freedom and immediate pleasure keep your attention in the moment but your self-concern and a stubborn quality can stop you from achieving as much as you would like in life. Everyone seems to genuinely like you; despite this fact very few people ever get really close, as your aura of self sufficiency keeps you distant. You identify a lot with how your relationships go in life. Still, it is usually more positive for you to directly and personally express the artistic and creative side of your nature rather than have this flair for the dramatic emerge in the interactive arena, where it has the tendency to create chaos. However, regardless of the difficulties, you do always "land on your feet". Your environment and relationships will always emanate a basic sense of good taste regardless of how high or how humble your

surroundings.

Sun Sextile the Ascendant

You are very creative and instill a sense of confidence in those around you. This gives you luck with people and you usually accomplish your goals. Your skills with people create opportunities for you to learn about yourself and about life. This is your formula for success. Your self acceptance and positive mindset unconsciously expresses itself to people conveying a feeling of confidence and competency. Your natural good feeling for your self allows you to put your positive attributes together in one place and express them.

Moon Quincunx the Ascendant

Your most sensitive feelings are often lost on others. Time and again you have to go back to the beginning of any group project to clarify what it is that you are trying to accomplish. "Short cuts" can be time consuming and force you into re-appraising your habits.

Jupiter Trine the Ascendant

You have a strong urge to express your thoughts and feelings to others in a positive and optimistic manner. You like people and enjoy interacting with them. You are attracted to confident and positive people, and they to you. People tend to bond with you over qualities in themselves that they feel good about. Your basic optimism and confidence gives you a perspective that allows you to see opportunity. This leads to winning, achieving and joy.

Neptune Square the Ascendant

You may not be able to prevent your being deceived by others, but you can strive to make sure that you don't do this to anyone else. Your ideals, your distaste for the unpleasant, coupled with your imaginative embellishments in life can add up to difficulties with people. It can be that you misappropriated some unrealistic ideals in your childhood that have tended to color your perception of the world since then. Your love of beauty will need some expression and you need some involvement with the arts and the culture as a whole in order for you to have solid and fulfilling emotional release. Learn more and more to see the world and its people as they are, not only as they could be.

Pluto Semi-Sextile the Ascendant

There is a latent powerhouse inside of you. See what you can do to surface and utilize this inner smoldering energy of yours. You have a deep transformational and transpersonal energy that can be used if you become comfortable with your own desire nature. Guilt and denial get in the way of embracing the higher transmogrifying energy of the universe. Let your light shine even if it means that you must publicly expose your own deepest and most embarrassing weaknesses. Trust that this is the path of real growth and change.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with

the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

TAURUS MIDHEAVEN

You are solid. You can be stubborn and need to be sure you are not taking yourself or your position in life too seriously. You can be quite loyal but also a real "turf protector" and closed to new input. This quality can contribute to long range success built on slow, cautious accumulation or can be responsible for you setting your aim so low in life that you don't live up to your potential.

Sun Semi-Square Midheaven

You make your mark on the world and on others. You may have some struggles coming to terms with your responsibilities. This stumbling block may have to be confronted a few times before you get your direction of achievement clearly demarcated. You do make your way in life. Your personality is painted in bold colors.

Mars Trine Midheaven

You have a large amount of extra energy to put into your career. You execute your plans swiftly. You are good at being able to spot an opportunity and to capitalize on it. You work well by yourself or in a position of leadership and generally, you find your niche.

Uranus Trine Midheaven

You have unique problem-solving skills. You go straight to the heart of a difficulty and start working to clear the problem up. You look at the world through a universal lens and consequently come full circle in your perspective. You excel in careers that require innovation. You are quite good at astrology, the occult sciences or some highly original discipline.

Pluto Trine Midheaven

Computers, math, psychology and working with symbols can be important on your job. You like digging out secrets and can be very well suited for research. You have strength of character that makes you a difficult person to oppose.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

Mercury Conjunct Venus

Think of Sections IV. MERCURY - Your mental life, and V. VENUS -Your love nature, as a single unit. This Conjunction is a central indicator of the way you interact with people and your environment.

Mars Conjunct Uranus

Think of Sections VI. MARS - Your energy, and IX. URANUS - Your search for freedom, as a single unit. This conjunction shows your spontaneous and creative qualities. This is a central theme of your nature.

Mars Conjunct Pluto

Think of Sections VI. MARS - Your energy, and XI. PLUTO - Your need for fundamental change, as a single unit. Anything that effects one area of your personality effects the other. Your drives and motivations in life fluctuate between extremes. This Conjunction represents a very central focus of your life.

Uranus Conjunct Pluto

Think of Sections IX. URANUS - Your search for freedom, and XI. PLUTO -Your need for fundamental change, as operating together. This combination shows strength of purpose and drive for spontaneous creativity. This Conjunction is a central ingredient in your life.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN GEMINI

You are versatile and adaptable. Usually, you have fifty projects going, all at the same time. You are interested in everything, but this makes it very difficult to do anything in particular very well. You love to relate. You build your day and your life around interactions with people, ideas and events. You are a rapid learner and a good communicator. Often, your learning is on the surface and your communication is just imitative, but you can reason and are not afraid of innovation. Try to be more consistent in your approach to life. When you are well organized, you accomplish. When you develop sympathy for others, your relationships become more stable.

Sun in 11th house

You are a good long-distance planner. Your perceptions of life's intricacies are not limited to your own situation. You are social and outgoing. In business as well as in sports you are a good team player. In your personal life you may be too detached with ideas and moods which run quite tangent to the norm. Be sure you are expressing your true feelings.

Sun in 11th house Unafflicted

You know how to use your natural friends and allies in a way that builds toward mutual success. You have a propensity for building on solid unimpeachable foundations which become part of a process of social change. Your keen perception of what is better is balanced against society's ability to change. You are unencumbered with most social prejudices.

SUN IS IN SOFT ASPECT TO YOUR JUPITER

You are lucky and optimistic. You are frank and direct with people without being hurtful. You are responsible and benevolent and can see how to get things done. You go through several changes in life which leave you in improved circumstances.

SUN SEXTILE YOUR JUPITER

Self-esteem abounds and you are able to help others primarily through example. Because you are comfortable and confident with yourself, you assume an aura of authority. Since others recognize this optimistic outlook in you, and because you have a tendency to instill confidence, you rise in life.

SUN IS IN SOFT ASPECT TO YOUR SATURN

You are self-disciplined and self-aware. You are ambitious and are willing to work hard to put your vision into action. Your naturally conservative instincts lead on a safe and sure path although it may well be a slow one. Being basically of sound judgment and reliable, people tend to trust you; these qualities alone may put you in a position of leadership at some point.

SUN TRINE YOUR SATURN

Your upbringing, family, and personal history lead you to expect the good in life. Your lofty expectations underlie the "lucky breaks" that come to you. Your personality has a cautious, serious, and disciplined ingredient that supports your vision of life which is practical and specific but also limited. Your productivity is linked to your instinct for finding the "law of gravity" operating through the center of any project.

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

MOON IN CAPRICORN

You are ambitious and cautious, a practical builder. You know how to hold to a position once you have taken it. Others find you a good leader and good at applying preexisting principles. What you lack in imagination you make up for in diligence and reliability. Others don't always trust you though because you are underhandedly competitive. This comes from your dualistic model of the universe where if one person is winning someone else must lose. The fuel for this outlook comes from a broodish emotional nature and limited outlook on what you feel you have coming. Try to be less self-demanding and more sympathetic to yourself and others in your life.

Moon in 6th house

You have an unconscious need to find the origin of what isn't working. You are capable of working in routine and menial jobs as part of your larger career picture or as part of a social process that allows you to transcend a sense of personal responsibility.

Moon in 6th house Unafflicted

By the time you reach adulthood you have figured out what works and what doesn't work at the level of your daily routines and habits. You find satisfaction through helping others and have a natural instinct for knowing where and when to give assistance. Good practical training has built a powerful gridwork of social graces and charms into the floor of your unconscious.

MOON IS IN HARD ASPECT TO YOUR VENUS

You have a desire to come before the public, to be recognized by others. You are really shy and have difficulty putting your best foot forward. At times, you withhold yourself or even intentionally put your worst foot forward. You want to gain acceptance for who you really are rather than take people in with a surface charm.

You long for significance and relationships are always in jeopardy until you know and accept yourself at a deep level.

MOON SESQUIQUADRATE YOUR VENUS

You are caught short - trying to do too much with too little. Momentary poor judgment can cause financial loss, digestive upset, or relationship breakups. Life improves if you are careful to access the consequences of your actions before you act and express your charm and social consciousness in a way that is emotionally attuned to the society you live in.

MOON IS IN HARD ASPECT TO YOUR JUPITER

You may suffer from pretending to be something that you are not. Avoid overstatement and exaggeration. Arrogance can stop you from correcting yourself when you are in an untenable position. Don't take yourself or life too seriously and you will find a lighthearted sense of humor that will ease your difficulties. See self-indulgence as an enemy to be avoided and luck will find you.

MOON SQUARE YOUR JUPITER

Overindulgence and too much of the good life can leave you ill, overweight and without money. Your generosity and jolly nature are liked and admired by others and you always make your way in life. Your poor judgment stems more from unharnessed desires than from ignorance. But, you do have a self-righteous streak. This aspect of your personality feeds public prejudices that are backward looking and out of step with the times. Here, your need for popularity and expediency can point to a deep ignorance. You accomplish much and are very successful but unstable unless you are exceedingly disciplined and honest with yourself.

MOON IS IN HARD ASPECT TO YOUR URANUS

You get great ideas but have a tendency to act on a subject with brilliant insight and partial knowledge. The accuracy of your specific perceptions successfully insulates you from needed correction by others. When you become mentally defensive you fall into a pattern of emotional instability; that encourages you to promote less than your best ideas merely to be different. You can fall into a negative spiral of being a social outcast and an iconoclast. This is avoidable through finding the part of yourself that is genuinely interested in the welfare of humanity. As you get older, your emotional life becomes more stable as a direct result of (and in direct proportion to) your ability to express empathy for people in your daily life. Big abstractions have to be practiced to have meaning.

MOON SESQUIQUADRATE YOUR URANUS

Sudden emotional outbursts and abrupt change in circumstances keeps your life lively. Just when life gets easy a complication emerges. If you rise to the challenge your life is exciting and entertaining.

MOON IS IN SOFT ASPECT TO YOUR NEPTUNE

You have a deep and abiding connection with music and art. When you are upset or feeling unbalanced; you can gain a sense of peace through music, meditation, and isolation. You are a sensitive and creative soul. As long as you are not too passive, your life has the good fortune to unfold along the path of least resistance. (Becoming too passive can mean stagnation). You are idealistic and believe the best about people. This is good and helps people, but remember to concentrate on people as they are, and not just what they might become. A

lofty potential is always there but might not ever manifest.

MOON SEXTILE YOUR NEPTUNE

A certain fluency with people and events gives you an ease in self expression. Grace and charm are part of your personality and you inspire others in barely perceivable and undefined ways. You are highly intuitive and deeply affected by other peoples' moods, feelings and responses.

MOON IS IN SOFT ASPECT TO YOUR PLUTO

A few significant dreams and a few significant people greatly impact your emotional outlook and unconscious life habits. You make absolute judgments emotionally and unconsciously as to who will affect you and who will not. You come before the general public at some time in your life, even if briefly. You have a powerful affect on others, passing along to them the deepest residue of your life experience. You develop deep emotional attachments and do not easily relinquish or alter them. You are a loyal friend once you have made a commitment.

MOON TRINE YOUR PLUTO

Compulsive and driven, you accomplish much through your ability to keep trying different approaches to a problem until it is solved. People either like you or dislike you intensely, as you are consciously focused and emotionally riveting, forcing people to choose sides. Your emotional instincts operate in a symbolic realm, conferring on you great skill in organizing patterns of thoughts as well as groups of people. You are very skillful at aligning the positive influences in your life.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN TAURUS

Your mind is conventional and determined. Your basic thrust is toward the practical. You wish to be thorough but sometimes your slow, intuitive approach misses some key ingredients that move in a more subtle realm. However, when something is registered once with you, you really have it. You express yourself with great determination. You are often balanced between a desire for diplomacy and a tendency to be fairly entrenched in your own perceptions. You have a keenly practical picture of the world and take great pleasure in the feel, taste, touch, smell, sight, and sound of things.

Because your perceptions move so close to the earth itself, your mind can lack flexibility. After all, the law of gravity doesn't allow much variation. Things are what they are. Adjustment to things beyond your control is difficult. You would rather ignore something that doesn't fit your perceptions or "dig in" for a fight.

Mercury in 10th house

You are able to apply knowledge in a very practical way. You may be able to turn your skill with language into literary talent. Your mental versatility and general adaptableness may bring you several changes in employment.

Mercury in 10th house Afflicted

You need to guard against a tendency to take shortcuts. Try to be honest and plan a direction in life. You may have a time in life of wandering aimlessly. Love of success can get in the way of doing justice to the process.

MERCURY CONJUNCT VENUS

You have a certain charm and graciousness in your manner of expression. You have an artistic sense which can come out as beautiful penmanship. People like you and will often seek you out. You, in turn, are good at helping others express themselves. You are courteous, diplomatic, and good at paraphrasing because you have an overview that comes from a multifaceted perspective.

MERCURY IS IN HARD ASPECT TO YOUR MARS

You can be a tireless worker and powerful promoter of a cause. You like working with instruments and machinery and have some mechanical aptitude. Your temper can be problematic, getting you into squabbles and disagreements where there doesn't have to be any. You have difficulty being either a diplomat or a leader so you are best to define your own work and territory and stick to it. Learn to take a break when things don't go your way, rather than becoming angry and frustrated.

MERCURY SQUARE YOUR MARS

You "jump to conclusions". Your mind doesn't draw logical conclusions but instead reacts from your desire to accomplish a specific goal. This clouds your judgment, presents you with mental conflict, and makes you angry. To improve your mind you need to spend time thoroughly understanding your desires and motives. You argue with those who hold ideas different than your own.

MERCURY IS IN HARD ASPECT TO YOUR SATURN

At a core level you don't think well enough about yourself. It may appear that you do on the surface, but the truth of the matter is your pessimism and complaining comes from a fear that life will not give you what you want. Learn to work smarter and not just harder. You see the virtue in discipline and often force yourself to do things you feel are good for you. In turn, you may resent others that don't work as hard. It is more difficult for you to get where you are going because you are always having to compromise between what you would like to do and what you feel is required. This conflict between desires and feelings of obligation is often the source of worry, stress, and wasted energy. For all this, you excel in any area that requires close, careful judgment.

MERCURY SQUARE YOUR SATURN

Mental laziness is your enemy. Your natural conservative "mind set" can take you along a path of success, but artificial worries and disagreements with authority can slow you down. Root out any negative attitude and do away with vindictiveness and your life is easy. Break big projects up into little pieces and be disciplined; then, your mind will take you far.

MERCURY IS IN HARD ASPECT TO YOUR URANUS

You get great ideas, even brilliant at times. Still, others don't always hear what you are saying and this makes you angry or standoffish. Whenever this happens, recognize that you need to be thorough and practical or else the world will not see what you have found so interesting. This is not the world's fault. Slow yourself down long enough to learn how everyone else does things and you will find a natural channel for getting your ideas across. Remember, a good idea is only a good idea until it is put into practice. Get physical exercise and you might find your nervousness much easier to control.

MERCURY SQUARE YOUR URANUS

You are an original thinker but you find yourself creating rebellion and moving to the left of even your own co-thinkers. Spontaneous internal combustion in your mental life keeps you moving toward freedom, without getting closure. Your nervous and iconoclastic attitude makes you difficult to get along with. Practice listening to others without devaluing them in your mind and you will overcome your natural mental self indulgence.

SECTION V. VENUS - Your Love Nature.

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

VENUS IN TAURUS

You have a love of money, food, and possessions. You are a very physical, slow and easygoing lover. You are slow to get involved with someone but you are steadfast once you do. Although you are by nature conservative and oriented toward your home, you have a pleasant sociable side to your nature and can be quite generous. You may have problems in dealing with others because you have a tendency to evaluate people on their material worth. In order to have satisfying human relationships, you need to see people more as they are and less in terms of their worth. Money may be security but it isn't any real compensation for lack of love. You seek inner peace through your sense of touch. Art, music, and harmonious order have deep significance for you. You have an earthly beauty and a natural charm.

Venus in 10th house

You are well thought of in society, generally. Your career may involve the arts, women, or the gentle side of experience. You are good at being able to cut a deal and get fringe benefits. You are a good negotiator.

Venus in 10th house Afflicted

You are afraid of being rejected by others. You look to be "rejection proof" through a position of power. You are attracted to other people at times because of their position or social station. You need to feel better about yourself and strive to develop relationships that are honest.

VENUS IN ASPECT TO THE MOON

You have an aspect between Venus and the Moon. This shows that you have a powerful emotional nature and are affected at a deep level by other people's thoughts and opinions of you. This was taken up in some detail for you in Section III. The Moon - Your Personal Life.

VENUS IS IN HARD ASPECT TO YOUR MARS

You are prone to emotional and financial excess. Your beliefs and values are at odds with your desires and it takes a lot of energy to integrate the two. You may become very interested in the baser, more physical side of romance. This is because you instinctively look for a common denominator between desires and values. The way out of this dilemma is to work at helping others and avoid putting energy into the selfish side of your drives.

VENUS SQUARE YOUR MARS

Conflict between love and desire causes a deep inner struggle. You look for "love in all the wrong places." Dancing, singing, and music are a way that you can create more of a harmonious atmosphere around you. There is a self defeating and self destructive chord in your nature which needs some instruction in the right direction in order to be more beneficial. First, be conscious of your tendency to react to others; then, you automatically start lifting out of the baser side of your nature. When you catch yourself acting in a way that is not in your best interest, concentrate on your ability to defer immediate pleasure for a long range good.

VENUS IS IN HARD ASPECT TO YOUR JUPITER

You have extravagant taste and certain primitive vanities that leave you vulnerable to being manipulated and used by others. You have difficulties in telling who your real friends are. Money and good times come to you but they tend to be unstable. Your romantic life is very unsettling even though very interesting. Overindulgence gets you into trouble more than once but for all your flaws people basically like you so you stay "people rich" even when you are "dollar poor". Money comes and goes in great quantities and when you learn to save you have security.

VENUS SEMI-SQUARE YOUR JUPITER

Vanity and poor judgment can detract from your otherwise charming personality. Being pleasant and kind, others can misunderstand your exaggeration and wishful thinking. Strive for clarity and you will seldom be disappointed.

VENUS IS IN HARD ASPECT TO YOUR SATURN

You have some real difficulties in love relationships and with the material world. On the surface, you are a gentle soul just trying to keep what is yours and trying to stop the world from taking advantage of you. Underneath this veneer you are driven by fear and greed and your life is poorer for it. Your instincts are conservative and you are frugal with money but this isn't sufficient to offset poor judgment with people and things. Reappraise your way of being in the world. If your hand is closed no one can take something from you, neither can you receive what others wish to give you.

VENUS SQUARE YOUR SATURN

Fear of rejection confuses and limits your life. You know only too well that you want things, people, and relationships that you can't have until you relax and take some risks. The down side of any gamble can scare you so much that you are miserly with your money and your affections. When you finally do reach out (and you always do) you tend to do it poorly. Overcome fear. Practice self acceptance without a lot of negative comparisons and judgments.

VENUS IS IN HARD ASPECT TO YOUR URANUS

You have a very unusual and unstable emotional nature. You can be stubborn, cold, and detached one minute, then malleable, solicitous and involved the next. You fall in and out of love easily. You are prone to abrupt but passing infatuations. As you get older, you learn to not act immediately on your attractions. You are in love with freedom and relationships represent freedom to you until you are really in them, then they seem like prison. When you find freedom inside your own soul your relationships become more stable.

VENUS SQUARE YOUR URANUS

You are unstable in the expression of your affections. You want to be close to people but you also want to be free to do what comes up spontaneously. You need to be sure of what you want in the long run in order to channel your emotional and creative energy in such a way that you get accomplishment for your effort.

SECTION VI. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

MARS IN VIRGO

Your desire for technical perfection can mean that you end up suppressing your wants. You do have skills but often lack the drive to do much with them. You need to build self-confidence. You work well in any area that allows you to serve others or that lets you create order. When it comes to careful, detailed work, you are either a pro or you get completely entangled in the minutiae and the situation decays around you. You take comfort in carefully defined details in any situation. Consequently, any time you feel threatened you retreat into details that make you feel safe. The trade-off?

Certainty costs you vision; you lose sight of the larger picture. You learn to see "the forest for the trees" when you become more courageous.

Mars in 1st house

You are strong-willed. You project a sense of power and vitality. You are physical in your approach to life and are a doer. If something isn't to your liking, you are apt to take some sort of action rather than just suffer or adjust.

Mars in 1st house Afflicted

Others may fear you or flatly just dislike you. You may be misunderstood because your personality is highly explosive. Avoid anger as the first response to uncomfortable situations. When your energy is properly channeled you are very creative and dynamic.

MARS IN ASPECT TO MERCURY

Your Mars in aspect to Mercury shows that you have a strong desire nature attached to your thought processes. The impact of this aspect on your reasoning process is discussed in Section IV. Mercury - Your Mental Life.

MARS IN ASPECT VENUS

You have Mars in aspect to Venus. This aspect shows sex appeal and interest in romance. This aspect is covered more fully in Section V. Venus - Your Love Nature.

MARS CONJUNCT URANUS

You truly "march to a different drummer". You have some difficulty hooking up with others emotionally because of your detachment and quirky forms of expressing your feelings. You are a humanist but not particularly personal. Your brand of romance is aimed more toward ideals than to people for their own sake. You have a strong will and are capable of putting an unbelievable amount of energy into a project. Your

enthusiasm for a person, a program, or a process can be short-lived because you don't like to be tied down. You have made freedom a religion and the urge to be free has claims in its own right on your personality. When you are committed to a course of action though, you can go harder and longer than others around you. Physical exercise is important daily to ensure emotional and physical well-being and balance.

MARS CONJUNCT PLUTO

You have power plus. Wherever your energy is directed your life will go. There is a fascination with the deeper aspects of life and a definite pull to any position of control or power. Unfortunately, there is such a thing as too much energy. You can burn out, and have no energy for a while. You need to learn to regulate your use of force and enthusiasm. Sometimes force is unnecessary. After all, you don't need a gun in order to withdraw money from your own bank account. The positive side of this quality is that you can fight hard and long for something that you believe in. You literally will not take "no" for an answer. The negative side of this quality is that you are apt to develop a complex that operates as an independent variable within the personality but outside the normal constraints of the conscious ego structure. This can give you perplexing drives and desires that you feel compelled to put into operation and yet you don't understand. Long periods of self-discovery and conscious work may be necessary to corral this energy.

SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

JUPITER IN ARIES

Your goals relate directly to your own personal drives. Consequently, your values are narrow in scope but you hold them with great enthusiasm. You are overly optimistic, truly believing in life and in your own abilities to materialize your vision. This quality allows you to lead others at times on the strength of your personality alone. You are ardent and active with immediate and spontaneous bursts of energy. You see opportunity in terms of your desire for freedom and self-expression. You like activity and can become quite interested in travel. The realm of ideas is highly personalized and colors all that you see and do as you are a pioneer, taking your own perceptions and unwittingly aiming them at the rest of the world. You have complete confidence in yourself and this trait alone can get you into trouble. You need objectivity as to the meaning of your life and your direction in it in order to avoid running into a dead end periodically. When you have developed a good sense of limits your infectious exuberance inspires others. You believe most strongly in that which is most immediate, and inevitably this is some attribute or ability lodged deep within you.

Jupiter in 9th house

You are inherently high-minded. You have an open value system. You are willing to learn from others and expect they will be willing to learn from you. You benefit through long distance and foreign travel. You plan well for the long run. Being a visionary, you know how to express yourself in ways that go beyond just the transport of mere information; you always have a point that you wish to impart. Your communication skills are useful in anything requiring advertising, (maybe even propaganda) for you are the conveyor of images.

Jupiter in 9th house Unafflicted

You inspire others to think big. You are a good planner. Somehow you have the ability to move on when the current situation becomes stagnant. Your love of adventure may encourage you to become proficient in some sport or outdoor activity.

JUPITER IN ASPECT TO THE SUN

You have an aspect from Jupiter to the Sun showing a deep connection between your values and your ego. As a consequence of this you have a stronger faith in your beliefs than most people and you are more likely to act on them. You have the potential for being quite an inspiration for others. In Section I. (The Sun - Your Ego Structure) there is more commentary on this trait of yours.

JUPITER IN ASPECT TO THE MOON

You have an aspect from Jupiter to the Moon showing an interest in expressing values through your daily life. What you believe has more impact on what you do than it does for most other people. The information on this topic in Section III. (The Moon - Your Personal Life) may be helpful in grasping how you do this.

JUPITER IN ASPECT TO VENUS

You have an aspect of Jupiter to Venus. This indicates that you expect the positive to happen. Your life values easily adjust to your taste, love nature and your sense for the beautiful. This creates some feeling of abundance for you. Your values are in tune with your affection. You may find the information in Section V. (Venus - Your Love Nature) useful in understanding this process.

JUPITER IS IN HARD ASPECT TO YOUR URANUS

Avoid your gambling impulses. The "long shot" and the impractical choices call you. Don't answer and you will be richer for it. You need to be grounded because your imagination is so far beyond the happenings of our common reality that you are likely to start selling real estate franchises on Mars before anyone has ever landed there. Make sure your ideas are practical before you start putting effort into them. New ideas you will always have; your difficulties come from putting energy into them. You don't see the necessity to work for a new idea in a realistic way because you have a belief that worthwhile ideas promote themselves. Consequently, you can end up "an armchair revolutionary". Make it a practice to sift through your ideas and actively support the most important.

JUPITER SESQUIQUADRATE YOUR URANUS

You have an undertone of excitement that pushes your life forward no matter what else is happening. You feel lucky and you generally are, but life does force you to keep on the move as you have an insatiable (even if unconscious) drive for freedom.

SECTION VIII. SATURN - Your Obligations.

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

SATURN IN AQUARIUS

You have a fear of being too self-involved. This is the source of continuous inner prompting to move forward. Your energy truly seems unflagging. You are interested in society and its needs. You don't easily take the initiative to improve things. Although you would like people's good opinion of you, you are always balancing your need for recognition against a need for approval. These two needs operating together stop you from being as innovative and creative in your goal selection as you would otherwise wish.

Saturn in 7th house

You look to relationships to bring you stability. You may marry someone older than you who represents security or someone who needs help where you can serve them. Your need to help others can be at least partially fulfilled through an intelligent career plan.

Saturn in 7th house Unafflicted

You have very faithful partners. You look to build toward a secure future with others. You may feel others don't hear you or are ignoring you. Patience and persistence bring results.

SATURN IN ASPECT THE SUN

You have Saturn in aspect to the Sun showing that you identify deeply with your obligations in life. This aspect of your nature is explored more deeply in Section II. The Sun - Your Ego Structure.

SATURN IN ASPECT TO VENUS

You have Saturn in aspect to Venus which shows that you take your love nature seriously and that you have a strong sense of duty. This is taken up in Section V. Venus - Your Love Nature.

SATURN IS IN HARD ASPECT TO YOUR URANUS

You learn most lessons in life the hard way, but you do learn. It is common for you to attempt to do something the way you have done it before and find out the old method will not work or doesn't apply. When you try to apply a new method you find you have to be empirical, trying many things before you find what will work. You

find life easier if you avoid letting emotional tension build up and if you make it a practice to speak your mind.

SATURN OPPOSITION YOUR URANUS

You have great trouble expressing your true perceptions as you tend to vacillate between an erratic casualness toward your obligations and a willfully dictatorial attitude. Others find you difficult to approach if they disagree with you. You suffer from feelings of isolation. Your deep inner fears of inadequacy have to be met and overcome if you are to be able to achieve your objectives in life.

SECTION IX. URANUS - Your Search For Freedom.

The planet Uranus is beyond the orbit of Saturn and can't be seen without the aid of a telescope. It represents the sky in us, that which transcends the limits of finite life. Uranus raises the vibration of everything it contacts. The sign placement of Uranus shows your broadest striving for freedom. The house placement of Uranus indicates your area of direct unique expression. The aspects to Uranus indicate the way you express your need for higher consciousness.

URANUS IN VIRGO

You see a picture of perfection and you willfully dive toward it. Although you are insightful, you need to stay open to alternate points of view.

URANUS CONJUNCT PLUTO

You have a compulsive and unconscious desire to change. There is a revolutionary quality to the way you go about bringing change in life. Years can go by relatively peacefully and then all of a sudden there is an explosion in your life. When the dust settles all goes well again but you and your world are never the same. Real change is always fundamental.

SECTION X. NEPTUNE - Your Spiritual Aspirations and Ideals.

The planet Neptune has an almost perfectly circular orbit. It represents the part of our nature that strives for perfection, that looks to some higher ideal. The planet Neptune rules the ocean and the part of us that is beyond the limits of the shores of personal existence. The culture moves with the cycles of Neptune and it is the primary indicator of your connection to the culture that you live in. The sign of Neptune shows an ideal that you desire to manifest. The house placement of Neptune shows the area of your life that you want to express this ideal in. The aspect patterns of Neptune indicate the most direct connections yet most subtle networking of your personality into the world at large.

NEPTUNE IN SCORPIO

You have powerful and unconscious impulses for sensation. You wish most of all to keep a social ideal alive through emotional intensity. You struggle to work out your secret desires.

Neptune in 4th house

You go to some trouble to secure the congeniality of your home environment. Your roots in life are tied to your spiritual outlook. You may live in surroundings that strengthen your intuition of psychic perceptions like being near a large body of water or in a spiritual commune.

Neptune in 4th house Unafflicted

Spiritual longings grow stronger as you get older. You are able to create an island of solitude where you can retreat from the day-to-day pressures. As you get older, this inner fortress stops being so much an escape and more a pillar of stability in your personality.

NEPTUNE IN ASPECT TO THE MOON

You have an aspect of Neptune to the Moon. This indicates a deep interest in the arts and in cultural pursuits. How your aesthetic taste influences your daily life is discussed further in Section III. The Moon - Your Personal Life.

NEPTUNE IS IN SOFT ASPECT TO YOUR PLUTO

You are fundamentally an idealist. You would like to see change come about in a way that doesn't destroy the existing social order. You believe in transition and transformation as saner and kinder principles of social change than revolutionary upheaval.

NEPTUNE SEXTILE YOUR PLUTO

Your higher ideals are the continuous recipient of forceful energy for change. Your long range perspective (even though this may at times be unconscious) is always toward your ideals winning out through deep self transformation.

SECTION XI. PLUTO - Your Need For Fundamental Change.

The planet Pluto represents the dark underground part of you. It shows your ability to transform the most fundamental properties in your own inner nature. The sign of Pluto is the way the obsessive, compulsive and committed part of your nature expresses itself. The house placement of Pluto shows the area of life where you make your most fundamental and most potent changes. The aspects to Pluto show the deepest most unconscious links in your personality structure.

PLUTO IN VIRGO

At best, you have critical powers to discriminate between that which works and that which doesn't. There is a striving for perfection at the core of your being that can narrow your horizons so far that you focus too much on basic issues connected with your own life. At worst, you are so critical that you slow down everyone's effectiveness. Patience and hard work are required in order to complete your personal transformations.

Pluto in 2nd house

Your financial picture is in the extremes. You may well go from poverty to wealth or wealth to poverty at least once in life and maybe more than once. In either case money is a sensitive issue (perhaps even an embarrassment) and plays a large a role in your thinking. However, you do have ability and your skill brings you a good return for your efforts.

Pluto in 2nd house Unafflicted

You instinctively know how to build on past successes. The material side of life takes care of itself eventually and you are free to work on other things. You may feel trapped by your success and abundance as it is all a "paper tiger".

SECTION XII. SUMMATION.

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

YOUR MAJOR PLANETARY ASPECT IS A SQUARE.

You have lots of energy and you need it. Your life changes through the resolving of conflicts. You are a fighter and you get clarity by drawing lines between the perceived good and bad of the moment. Your inclination is to be action oriented first, and reason things out after the battle. Your hunches are based on the odds. You take an empirical approach to problem solving. Your keyword is Energy.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Well-Aspected Sun.

Your ego structure serves the natural place of giving your life balance and symmetry. You have a potent central core that allows you to achieve a sense of integration. This potency aids you immensely by supplying you with inner poise under all circumstances. This doesn't make your life easy but does help you get perspective on experiences.

Well-Aspected Neptune.

Your insights and ideals give you the ability to rise above the circumstances in your life that seem limiting. Your comprehensive and ever-expanding outlook can be a source of inspiration for others.

Well-Aspected Pluto.

Your ability to be thorough and absolutely no-nonsense when it comes to reorienting yourself in a time of trouble is especially helpful. Your sense of timing is usually accurate. You can turn a delicate project into an assured success by being 100% behind it.

Venus in Taurus.

You have a soft, sensitive, sensual side of your nature. This is a quality that allows you to enjoy the material world and find personal expression for your love nature.

Mars in the First House.

Your responses to life are immediate and energetic. You do your best work through adopting a "take charge" attitude toward your circumstances. Acting personally and physically usually the best strategy for you to materialize your thoughts.

Jupiter in the Ninth House.

You have a natural adaptive mechanism in life that stems from your ability to draw on things faraway in time and space. Confidence is your secret key. When you have complete faith in the universe to do the right thing your success is secure.

Saturn in Aquarius.

You have a sense of what needs to be done and stay in constant motion. You have a steady determination that will bring you success. Discipline is easier for you than most. A balance between your drive for accomplishment and your wish for other peoples approval practically guarantees a modicum of success.

Saturn in the Seventh House.

You work out a sense of purpose through your relationships. You have a golden opportunity to remove obstacles to growth in your personality directly by working on the key relationships in your life.

Neptune in the Fourth House.

Your natural feeling for your own life and life in general is very positive. Family and your emotional roots can create a pattern of positive expectation that you can always fall back on.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Afflicted Mercury

You suffer because you draw the wrong conclusions from your perceptions. There are several ways of breaking out of a negative picture. You can ask other people's advice as to your present course of action in life, you can strive to be more empirical in your observations, and you can look for a consistent pattern in your past actions. Through expanding your perceptions, you can break out of a self-limiting mental bubble.

Afflicted Venus

You sell yourself short in love. You have great difficulty getting your true emotional intentions to the surface and self-expression can be awkward, overly self-conscious, or ineffective in achieving your heart's desire. The key to personal development in love and interpersonal expression lays in setting your emotional priorities. This leads to less conflict and to the experience of more satisfaction.

Afflicted Mars

Your desires often get you into trouble. Rechanneling your energy into something constructive is very difficult. Your natural tendency is to repress your wants or to trade one extreme, like anger, for another such as lust or greed. Your energy is still a winning quality and good effort eventually brings good results. You can learn to redirect your impulses through hard work, patience and consistent attention to results.

Afflicted Uranus

You have a habit of expressing your uniqueness at the wrong moments and in the wrong way. Unhappiness and a feeling of isolation are the end products of your actions that you were hoping would lead to freedom. True freedom comes through responsibilities, not by escaping them. Develop creative outlets for your energy that will not run counter to your basic good will to others and your true responsibilities follow you naturally.

Sun in the Eleventh House

You have great interest in people and often experience joy through other people's accomplishments. It is difficult to get to the root of your own needs because your life is so wrapped up in others. It is best to make sure that you spend enough time by yourself to see who you are.

Moon in Capricorn

You are competitive and self-contained in your daily activities. This need to prove yourself is rooted in feelings of inferiority. Practice being more peaceful; accepting yourself sets a smoother course for relationships.

Pluto in the Second House

You have great extremes in personal resources in life which reflects the basic contradiction of wanting to be connected to all of life and wanting to be totally private in your appraisal of self-worth. You need to overcome greed and guilt in order to fully transform your life.

Pluto in Virgo

You suffer in the process of self-transformation because you have difficulty in making the decision to change yourself rather than changing circumstances in your life. Get more basic, change your attitudes and habits and life becomes much lighter.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Sun in Growth Aspect to Moon

You undergo development throughout this life via the process of your ego drives learning to work in harmony with the circumstances of your everyday existence. As you get older you ask more of yourself as you adjust to circumstances of each situation rather than fighting them. To do this without lowering your goals, standards, and expectations is the trick, but it is also the path of personality maturation.

Sun Quincunx Moon

Your perceptions of others and of life circumstances alter as you get older. As others misunderstand your intentions and you misjudge others' motivations, natural corrections occur for you. It is through concentrating on the core values of communication in relationships that you make major adjustments between your ego drives and your emotional needs. This becomes a critical mechanism for personal growth and development.

Sun in Growth Aspect to Neptune

Yearning to manifest a higher ideal can put you in fantasy more than most people. You feel intrinsically tied to social institutions, so you tend to feel victimized by them unless you are actively doing something to improve them.

Sun Quincunx Neptune

Your energy tends to be directed unrealistically. Your own sense of self changes as you learn from your own misappraisals of situations that are important to you. If you feel drained or frustrated it is always helpful to look at your overall direction in life and determine if you have taken on more through your high ideals than your physical vitality can sustain. It is always worthwhile to see how your ideas are received by others, to see if you can involve them in your vision. When you can't, avoid trying to do everything yourself. Slow down, "if it is worth having it is worth waiting for."

Jupiter in Growth aspect to Neptune

You are sitting on a "gold mine" of opportunity. The problems of using this opportunity correctly is to require you to form better judgments in order to see more accurately the gift of optimism and long range planning that are potentially the underpinning of your judgments. The gentle side of your nature can lead to escapism, which stops you from moving forward in life. For your ideals to manifest they must be tested in the material world. This is the path of value unfoldment for you. Be empirical.

Jupiter Quincunx Neptune

The imaginative and humanitarian side of your nature needs lots of exercise in a "trial and error" manner before you are able to get your best skills to emerge in a way that is non-intrusive and can elicit the best qualities in others. The artistic side of your nature may seek a manner of expression that allows you to stay behind the scenes so you do not have to climb the learning curve required to interface directly with the public.

Jupiter in Growth aspect to Pluto

It takes a long time for you to get the proper balance between theory and practice, between value and implementation. How you treat other people and their various ideas will be the key to finding positive expression and deeper satisfaction. Any of your "shortcuts" that are perceived as high-handed or manipulative will be your undoing. Trust the innate guiding force, the common sense intelligence in other people to help you build consensus.

Jupiter Quincunx Pluto

Your overly self-secure mode of interacting disguises some deep distrust of your own foundations. Behind your flamboyance and manipulative assertions are some profound insecurities. When you come to terms with your own weaknesses and see them as not so profound or bad, you will simultaneously become more open and acknowledging of other people's values and points of view. This lays the foundation to use your vast insight and expanse of vision in a positive manner.

E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

Venus Parallel Ascendant

This love of beauty and desire for harmony in you finds its first and most fundamental expression through your physical body, then through relating. Others can be charmed by you as your awareness of interpersonal dynamics is second nature.

Mars Parallel Uranus

Erratic impulses may be rooted in your electrical system for which you need physical action. There is a forceful sometimes explosive energy in you that must find some way of emerging. You are able to be free from the confines of convention which coupled with your quickness, gives you an inventive and forceful nature even if you do overreact to channels from the environment at times.

Saturn Parallel Neptune

You have more difficulties than most people seeing your true obligations but, you have involvement with some transcendent moral code. You may not always be correct in your assessment of what you need to do in life and you may have a rather cold detachment. You need to be very clear as to your emotional needs and how to fulfill them. This gives your life context and allows you to correctly channel your rather powerful and imposing energy toward positive results.

Sun Contra-Parallel Moon

You will integrate the early habit patterns from your childhood into the core of your personality. Until this happens you will have many changes in your life pattern. On the other side of this adjustment, you are a very stable personality upon which other people can depend. You possess great strength that is not always evident to others.

Moon Contra-Parallel North Node of the Moon

Your basic instincts are in conflict. Habits deeply ingrained and more unconscious than conscious tend to direct much of your emotional life. Long periods of wandering while you look for a solution to basic life problems are necessary before you break through to a new series of habits that sustain life. You have a natural tendency to try and integrate the past with the way that your life wants to go.

Mercury Contra-Parallel Saturn

A natural suspicion of your own thought process imbues you with a cautiousness in all of your daily affairs as well as your strategic long term planning. Your best projects in life are those that develop slowly through time with great concern for the practical aspects and applications of your efforts.

F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Cancer

Opening your heart to others, being involved in the creative process betters your life. Learn to deal with how things are, not for what they can become. Concentrate on issues of family and emotional bonds and less on practical results. You know how to be responsible, the big question is "Can you learn to be responsive to the emotional needs of others?" The development of empathy and bonding requires you to take steps away from pessimism and to approach life's fuller possibilities.

North Node of the Moon in Cancer and in the Twelfth House

Deep self-involvement is necessary in order to advance your life. You easily get lost in an atmosphere of constant doing, lost in minutia, more trivia. Meditation can extricate you from daily doing, and service to others can open you emotionally. Both things are necessary in order to just be and get in contact with yourself which you tend to lose in action. Inaction is hard to achieve but it grows as compassion gains strength and fear weakens.
